### Minor injury:

- Respond quickly to any incident and assess injury.
- Reassure and calm the child.
- Apply First Aid if needed
- Monitor child
- Fill in 'Incident, Injury, Trauma and Illness' report and inform parents on arrival that afternoon.

### Serious Injury:

If an injury appears serious, staff should:

- Ensure the child is not moved, if injury is to the head or neck or you are not sure.
- Call an ambulance.
- Ensure the school's First Aid Officer attends to the child on the accident site.
- Inform the Principal and parents immediately.
- Principal will notify early learning

Also See Bass Hill Public School First Aid Plan

*NOTIFY PARENTS FOR ALL HEAD INJURIES- NO MATTER HOW SERIOUS*

### **Sickness**

The following general guidelines apply if a child becomes sick whilst at preschool:

- The child should be separated from the other children and made comfortable, whilst kept under supervision, for example, lying comfortably on a cushion in a quiet corner.
- If the child is not well enough to participate in activities, their family should be contacted and asked to collect them or arrange for their nominated emergency contact to do so.
- If a child appears very unwell or has a serious injury that needs urgent medical attention, an ambulance must be called
- If a child develops a serious illness whilst at preschool and as a result needs to attend a medical practitioner or hospital, a notification also needs to be made to Early Learning.
- If a parent is called to collect a child early from preschool, the details need to be documented in the incident, injury, trauma or illness record.
